

Employers

Our goal at SOMI is to administer your benefit plans while streamlining and simplifying the process for you and your employees.

Our flexibility benefits both you and your employees. For you, it means that we can administer all or any part of your benefit package through any insurance or HMO carrier on either a self-funded or fully insured basis. You purchase the right combination of services to meet your requirements. For your employees, our flexibility means we can offer benefit plans and claims processing services that are simple, efficient and easy to understand.
